

## Global Cable REV45 Motorised Tool for Submarine Cable Insulation Removal Ø10mm to Ø42mm

### Function:

- Removes insulation
- Reduces / step insulation diameter

### Features:

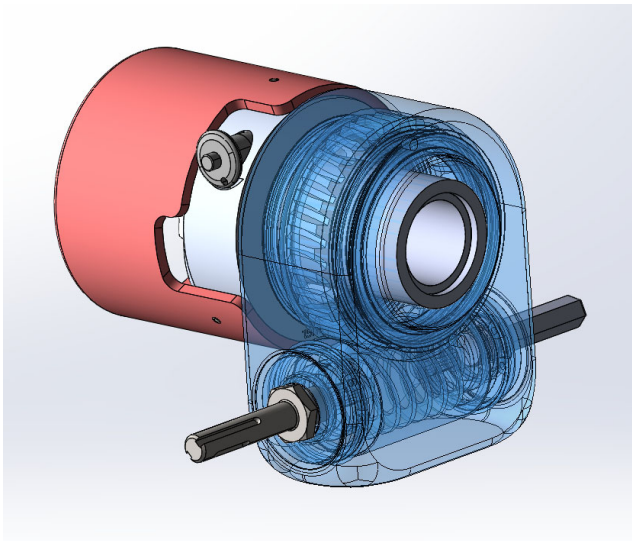

- **Safe, Fast, Easy** removal of inter-layer bonded insulation from Submarine Cable / Fibre Optic Cables
- Cable held concentrically in the tool by means of easily interchangeable bushings / inserts
- Double sided blade / 2 life blade.
- The tool is driven by a drill using either an SDS Plus connection or 10mm hexagon drive
- The blade depth is adjusted via a 4mm allen screw
- The tool comes with the option of 5° / 7.5° / 10° cutting guides to facilitate easy insulation removal depending upon overall cable diameter
- Bushings / Inserts available in 45mm and 36mm outside diameter with 45mm>36mm adaptor
- Robust design for factory / field use / at sea / laboratory
- Proven worm wheel gearbox design
- CE approved

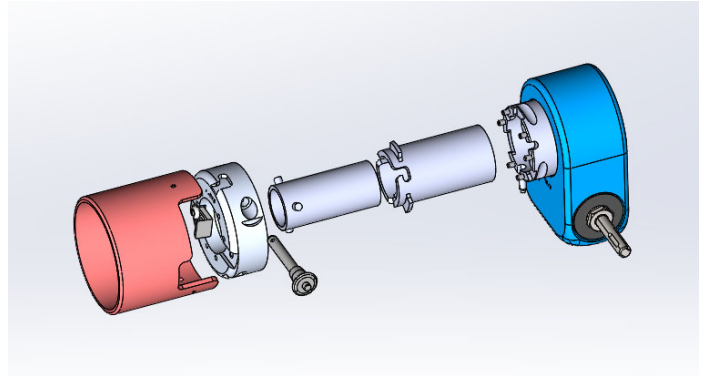

### Specifications:

- Range: 10mm>42mm
- Max cutting Depth: 15mm
- Operating Speed: 50rpm
- Drive: SDS Plus or 10mm hex
